

COVID-19 Screening Questionnaire

Please complete before entering the child care/day camp/school setting.

Name: _____ Date: _____ Time: _____

1. Does the child/student have any of the following new or worsening symptoms?*

Yes
No

Fever > 37.8°C

Yes
No

Cough

Yes
No

Difficulty breathing

Yes
No

Decrease or loss of taste/smell

Yes
No

Sore throat or pain swallowing

Yes
No

Stuffy or runny nose

Yes
No

Nausea, vomiting or diarrhea

Yes
No

Headache**

Yes
No

Feeling unwell, muscle aches or tired**

If "YES" to any symptom:

Stay home & self-isolate

Get tested

Or

Contact a health care provider

2. Does anyone in your household have one or more of the above symptoms and/or are waiting for test results after experiencing symptoms?*** Yes No

3. Has the child/student travelled outside of Canada in the past 14 days? Yes No

4. Has the child/student been notified as a close contact of someone with COVID-19 or been told to stay home and self-isolate? Yes No

If "YES" to Questions 2,3, or 4:

Stay home

Follow Toronto Public Health advice

*Children who have an existing health condition identified by a health care provider that gives them the symptoms should not answer YES, unless the symptom is new, different or getting worse. Look for changes from the child/student's normal symptoms.

**If the child/student is 12+ years old and has a mild headache, tiredness, sore muscles or joints within 48 hours after getting a COVID-19 vaccine, they should select "No" and wear a fitted mask when at child care/day camp/school. If symptoms last longer than 48 hours or worsen, they are to stay home, self-isolate and get tested.

***If the household member received a COVID-19 vaccination in the last 48 hours and is experiencing mild headache, fatigue, muscle aches and/or joint pain that only began after vaccination, select "No."

Updated June 18, 2021

MY CHILD/STUDENT HAS 1 OR MORE SYMPTOMS OF COVID-19, WHAT SHOULD I DO?

Was the child/student a close contact of someone who tested positive for COVID-19?

YES

- Everyone, including household members, should stay home & self-isolate. Get your child tested.
- **If positive**, notify the child/student's child care/day camp/school of the positive result. Toronto Public Health will follow up with further instructions.
- **If negative**, the child/student will still need to self-isolate for 14 days from last exposure to the person who was positive. Any household members can go to child care/day camp/school/work but must not leave the home for other non-essential reasons.
- **If your child/student is not tested** they need to self-isolate for 10 days. Household contacts will also need to stay home and self-isolate for 14 days.

NO

- Notify the child/student's child care/day camp/school that they have symptoms.
- The child/student should stay home, self-isolate & get tested.
- Anyone in the household who attends a child care/day camp/school setting must also stay home and self-isolate until the child's test is negative.
- If the child/student is 12+ years old and has a mild headache, tiredness, sore muscles or joints within 48 hours after getting a COVID-19 vaccine, they should wear a fitted mask when at child care/day camp/school. If symptoms last longer than 48 hours or worsen, they are to stay home, self-isolate and get tested.

What was the result of your child/student's COVID-19 test?

POSITIVE

- Let your child/student's child care/day camp/school know that they tested positive for COVID-19.
- The child/student must stay home & self-isolate for 10 days from the day their symptoms started. They can return to child care/ day camp/school, after 10 days even if someone else at home develops symptoms.
- Household members & close contacts must self-isolate for at least 14 days.
- Toronto Public Health will contact you to do an investigation & will provide further instructions.

NEGATIVE

- The child/student may return to child care 24 hours after their symptoms started improving.
- Siblings and adults who attend a child care/day camp/school setting can return right away as long as there are no other household members with symptoms.

NOT TESTED

- The child/student must stay home & self-isolate for 10 days from the day symptoms started. After 10 days, the child/student can return to the child care/day camp/school setting if their symptoms are improving.
- Everyone in the household must self-isolate until the child/student with symptoms gets a negative COVID-19 test or 14 days have passed.
- If a health care provider has diagnosed a condition that isn't related to COVID-19, the child/student can return to child care/day camp/school 24 hours after their symptoms improve. Household members do not need to stay home.

If the child/student has travelled outside of Canada in the last 14 days:

- They are required to self-isolate for 14 days even if they test negative for COVID-19.
- If the child/student has symptoms, their household members should self-isolate until the child/student's COVID-19 test is negative.
- If the child/student does not have symptoms, household members should stay home except for essential reasons while the student/child is self-isolating. Essential reasons include attending school/child care/day camp/ work and essential errands such as obtaining groceries, attending medical appointments or picking up prescriptions.
